Nonthaburi 11120

Summary

I am a Mathematics with Computer Science student with an interest in data analysis, mathematics, programming, and problem-solving. I enjoy learning new things and working with others. I am seeking a cooperative education opportunity to apply my knowledge in a real workplace and develop my data analysis skills.

Education

King Mongkut's University of Technology North Bangkok

2024-Present

Bachelor degree of Science in Mathematics with Computer Science

GPAX : 3.16

Academic Projects

- 2026
 - o Database Programming : Developed a database application using C# and SQL Server.
 - o Database Management Systems : Designed a restaurant management database with multiple related tables.
 - o Object Oriented Programming : Applied classes, objects, methods, and encapsulation to organize the program
- 2025
 - o Computer Programming for Mathematics II : Applied classes, objects, methods, and encapsulation to organize the program

Certificates

- 2026
 - o Introducing Generative AI in Academic Research for Students
- 2025
 - o เขียนโค้ดคู่กับ AI เสรีใจ + ไม่ตกเทรนด์
 - o Visual Storytelling with Ai
